

Residential Fluorescent Bulb RECYCLING PROGRAM

Todd-Wadena Electric Cooperative makes bulb recycling as easy as a trip to your local hardware stores, and we'll even help pay the recycling fee.

Here's how it works:

- Take your used bulbs* and one coupon per bulb to a participating store. (See list on back.)
- Each coupon gives you 50 cents off the recycling fee for each qualifying bulb you recycle.
- Todd-Wadena Electric Cooperative will redeem up to 10 coupons per member household.

Bulb recycling is good for the environment, and it's the law.

Used fluorescent and high-intensity discharge (HID) lamps require special care because they contain a small amount of mercury. Because it's important to limit the amount of mercury entering our environment, Minnesota law states that fluorescent bulbs cannot be disposed of with your household garbage.

Although fluorescent bulbs require special care after they burn out, they'll last up to 10 times longer than incandescent bulbs and they use 75 percent less energy. With today's improving lighting technology, fluorescent bulbs give you the same warm quality of light as regular bulbs.

*Circular fluorescent tubes, compact fluorescent bulbs, high-intensity discharge lamps, fluorescent tubes up to 8 feet in length.
